

2016 ICRETT Fellowship Awardees

Name	Country of Fellow	Host Institution name	Host Institution country	Fellowship Title
Dr Agrawal Rashi	India	Todd Cancer Institute	United States	Image guided brachytherapy
Mr Alonso Rafael	Uruguay	International Agency for Research on Cancer	France	Measuring the impact of tobacco control measures in Uruguay
Dr Akin-Odanye Elizabeth	Nigeria	Memorial Sloan-Kettering Cancer Center	United States	Improving Early Diagnosis and Psychosocial Care for Cancer Patients in Africa
Mr Aluko John	Nigeria	University of Siena	Italy	Histopathological Characterization of Lymphomas and their Relationship with Epstein-Barr Virus Infection in Ile-Ife, Nigeria
Dr Ananthamurthy Anuradha	India	Memorial Sloan Kettering Cancer Centre	United States	Biomarkers of immune deregulation in Classical Hodgkin Lymphoma
Dr Berta Judit	Hungary	INSERM, Institute of Metabolic and Cardiovascular Diseases	France	Investigating the role of apelin-APJ signaling in the malignant behavior of cutaneous melanoma
Dr Chandra Harish	India	National Cancer Center	South Korea	Study of minimal residual disease in acute leukemia
Dr Co Jayson	Philippines	Princess Margaret Hospital	Canada	Clinical Observership in Pediatric Cancer Survivorship and Late Effects Clinic
Dr Corotas Svetlana	Moldova	University of Rome "La Sapienza"	Italy	Strengthening Cervical Cytopathology Services for Cervical Cancer Prevention in the Republic of Moldova
Mr Dieu-Donné Egue Marcel	Benin	CHRU de Lille	France	Capacity building course in cancer control, survivorship and research-surveillance in Lille Cancer Registry (France)

Name	Country of Fellow	Host Institution name	Host Institution country	Fellowship Title
Dr Duggal Rajan	India	Johns Hopkins Hospital	United States	Immunohistochemical approach in poorly differentiated genitourinary malignancies where question of prostatic origin is an issue
Dr Erreni Marco	Italy	Center for Cancer Research, NCI, NIH	United States	Intravital microscopy analysis of mouse colon in healthy and colitis conditions
Dr Fatiregun Omolara	Nigeria	University of Chicago	United States	Breast cancer Molecular subtypes, Management and prognosis in a Tertiary hospital
Dr Foca Ecaterina	Moldova	West Kent Gynaecological Oncology Centre, Maidstone Hospital	United Kingdom	Strengthening Gynaecological Pathology Services for Cervical Cancer Prevention in the Republic of Moldova
Dr Fortuna Tatania	Moldova	West Kent Gynaecological Oncology Centre, Maidstone Hospital	United Kingdom	Strengthening Gynaecological Pathology Services for Cervical Cancer Prevention in the Republic of Moldova
Dr Ghosh Saptarshi	India	Université Catholique de Louvain, St-Luc University Hospital	Belgium	Accurate delineation of Nodal CTV (Clinical Target Volume) and IMRT (Intensity modulated radiation therapy) treatment planning in head and neck malignancies.
Dr Goel Anil	India	University of Michigan	United States	IMRT in Head and Neck Cancers
Dr Ikeri Nzechukwu	Nigeria	Royal National Orthopedic Hospital	United Kingdom	Clinicopathologic characteristics of soft tissue malignancies at the Lagos University Teaching Hospital
Dr Irawati Nina	Indonesia	Police General Hospital	Thailand	Minimally Invasive Thyroid Surgery Training
Mr Khalis Mohamed	Morocco	International Agency for Research on Cancer	France	Assessment of the relationships between breast cancer and dietary factors among Moroccan women
Dr Kumar Pavnes	India	Memorial Sloan-Kettering Cancer Center	United States	Stereotactic radiosurgery for management of spinal metastases

Name	Country of Fellow	Host Institution name	Host Institution country	Fellowship Title
Dr Lavingia Viraj	India	City of Hope Comprehensive Cancer Center	United States	HAI for mCRC (GI oncology)
Ms Lucksom Pesona	India	Queen Elizabeth Hospital	United Kingdom	Observership in Gynaecology oncology
Dr Mandal Chandan	India	Northern Institute for Cancer Research, Newcastle University	United Kingdom	Investigating Homologous recombination repair function in epithelial ovarian cancer and clinic-pathological correlation
Dr Mandal Ranajit	India	International Agency for Research on Cancer	France	Technology transfer in statistical analysis and data inference by analyzing a study entitled 'correlation between the expression of p16 & Ki67 and colposcopic and histo diagnosis and HPV status in cervix' and preparation of an atlas on cervical IHC
Dr Mardi Kavita	India	Mayo Clinic	United States	Study of pathologic features predictive of patients outcome with special emphasis on their molecular diagnosis and cytogenetics of CNS tumors
Dr Marino Marco Vito Martino	Italy	National Cancer Institute	Ukraine	"Training in Extended Surgical Procedures for Advanced Cancer Cases"
Dr Marusic Zlatko	Croatia	Cleveland Clinic Foundation	United States	Complementing diagnostic pathology of soft tissue and bone tumors by using a novel next generation sequencing platform in undifferentiated round cell sarcoma
Dr Mondal Dodul	India	Rutgers, The State University of New Jersey	United States	Newer breast radiation techniques in developing country: A real challenge
Ms Mondal Supriya	India	University of Birmingham	United Kingdom	Quality of life and survivorship after ovarian cancer surgery
Dr Mutneja Abhinav	India	Humanitas University	Italy	Comparison of doses to OAR with SBRT and IMRT in Prostate Carcinomas.
Dr Nemazanyy Ivan	France	The Beatson Institute for Cancer Research	United Kingdom	Identification of metabolic determinants in the models of hyperplasia

Name	Country of Fellow	Host Institution name	Host Institution country	Fellowship Title
Dr Oon Chern Ein	Malaysia	Nanyang Technological University	Singapore	A novel sirtuin inhibitor: Unravelling its potential as an anti-angiogenic agent in cancer
Dr Pretula Ruslan	Moldova	University of Rome "La Sapienza"	Italy	Strengthening Cervical Cytopathology Services for Cervical Cancer Prevention in the Republic of Moldova
Dr Puranik Prashant	India	Broomfield hospital	United Kingdom	Breast reconstruction after mastectomy
Dr Queiroz Karla	Brazil	Erasmus University Medical Center	United States	Organoid technology: a relevant model system to study cellular metabolism?
Dr Rubagumya Fidel	Tanzania	Brigham and Women's Hospital	United States	Radiation Oncology Clinical Rotation
Ms Sautbayeva Zarina	Kazakhstan	Harvard Medical School	United States	Characterization of extracellular vesicles from glioblastoma cell lines
Dr Shah Krati	India	University of California, San Diego	United States	Bioinformatics Analysis in Breast Cancer Genomics
Dr Sharma Daya Nand	India	University of Kentucky College of Medicine	United States	Permanent Seed Brachytherapy for Gynecological Malignancies
Dr Thavarool P Sajith Babu	India	Memorial Sloan Kettering Cancer Centre	United States	Clinical Observorship at Head and Neck Service, Department of Surgery, MSKCC, Newyork
Dr Yousef Yacoub	Jordan	Princess Margret Hospital	Canada	Radiation Therapy (Stereotactic and Brachy therapy) for ocular tumors.
Dr Zotor Francis	Ghana	International Agency for Research on Cancer	France	GloboDiet Senior Fellowship
